YASMINE AZZAOUI

yasmineazzaoui2@gmail.com | 0499 374 103 | Brisbane, Australia 4006

Professional Summary

Data Analyst with strong SQL and cloud data expertise, operating at the intersection of analytics and data engineering. Experienced in designing analytical data models, building automated reporting pipelines, integrating APIs, and supporting production-grade data workflows in Big Query. Currently expanding engineering depth through She Codes Plus (2025), strengthening Python, Django, and API-driven development to transition into a data engineering–focused role. Known for translating complex data into scalable solutions while working closely with product, engineering, and automation teams.

Skills

- Advanced SQL (BigQuery, Snowflake)
- Data validation & cleaning
- Statistical analysis (A/B testing, regression, t-tests)
- Automated reporting pipelines
- Braze, Salesforce Marketing Cloud HubSpot
- API design & consumption (REST, authentication, payloads)
- GitHub & Git
- Data modelling (analytical & reporting schemas)
- Performance optimisation
- Power BI
- Microsoft Excel (data modelling, VBA macros)
- Python, Flask, Django & Django REST Framework
- Postman & Insomnia
- Cloud-based data pipelines

Professional Experience

Auto & General
Marketing Database Analyst
12/2023 - Current

- Built high-usage Power BI dashboards across Budget Direct and Qantas Insurance.
- Developed automated reporting pipelines to improve data reliability and reduce manual effort.
- Built propensity models in BigQuery to predict customer behaviour and optimise personalisation efforts.
- Suggested and evaluated experimentation outcomes using statistical methods (A/B testing, regression analysis).
- Conducted deep-dive analyses to identify low-performing campaigns and recommend data-driven improvements.
- Implemented Braze Currents → BigQuery pipelines, creating live, auto-refreshing event tables.
- Pushed enriched data back into Braze using Payload APIs and Customer Data Ingestion (CDI).
- Tested and validated API integrations using Postman, ensuring data accuracy, and reliable automation workflows.
- Supported internal AI-driven segmentation and automation initiatives through structured data inputs.
- Key analytics partner for Product Managers.
- Worked closely with Data Engineers, Marketing Automation Specialists, Compliance, Developers, and Partnerships teams.
- Translated complex data outputs into actionable commercial insights for

senior stakeholders.

Twist & Schirm Social Media GmbH
Data Analyst
04/2023 - 01/2024

- Modelled and analysed consumer datasets in Snowflake.
- Integrated Meta and Google Analytics data into unified reporting environments.
- Built Power BI dashboards for clients including Red Bull and Hyrox.
- Ran creative A/B testing to optimise performance and ROI.

Proudi
Marketing Specialist / Marketing Coordinator
06/2022 - 12/2023

- Led HubSpot CRM implementation, including data structure, workflows, and reporting.
- Built Power BI dashboards to track campaign and funnel performance.
- Supported data migration and process standardisation during CRM adoption.
- Collaborated cross-functionally to embed data-driven decision making.

Education

She Codes Plus | Brisbane
Full stack Developer Program
Current - 04/2026

University of Queensland | Brisbane, QLD
Master of International Relations in Peace & Conflict Studies
01/2021

Technische Universität Darmstadt | Germany
Bachelor in Psychology And Sociology
01/2019

Certifications

- Coaching Conversations — Auto & General (internal leadership & communication training) (2025)
- Marketing Data Analytics & Insights – RMIT Online (2023)
- Data Analytics Essentials – IBM (2022)
- HubSpot Certifications (Email, Inbound, Marketing Software, SEO)

Community Professional Affiliations

- Volunteer, Her Tech Circle — supporting female participation in tech.
- Student, SheCodes Australia (Plus Program, 25/26 cohort) — building Python, web frameworks, API, and full-stack skills.
- Member, Women in Technology (WiT) — active in industry networking and professional development.
